

Spectra L200 Pricing Information

Fig 1.1 – Standard assembled L200

Standard Spectroscopy Kit

- One complete L200 in component form
- Slit options to be specified separately, choice of reflective (recommended) or adjustable slit
- Kit includes one grating assembly of 600 l/mm
- Hard-coat maroon anodised finish with silk screened details as standard
- Custom colours no longer available (apologies), decision made to reduce costs
- Pelican Storm iM2300 protective case available, choice of cubed inserts or laser cut anti-static inserts
- Assembly service available

Deluxe L200 Information

Fig 1.2 – Deluxe L200 with accessories

The L200 Deluxe issue is available in limited numbers for the discerning amateur. The gold anodising sets it apart from the standard kit, the system comes complete with all available accessories, a full set of grating assemblies, neon and relco quick change calibration lamps and a protective case with laser cut inserts to protect your investment.

Scope of delivery

- One complete assembled L200
- Reflective slit
- Assembled
- Full set of grating assemblies (150, 300, 600, 1200 & 1800 l/mm)
- Calibration lamp with neon and relco quick change bulb
- Hardcoat gold anodised finish with silk screened details
- Pelican Storm iM2300 protective case with laser cut, anti-static foam inserts (prevent attracting dust or risk to an attached camera)

Grating Assembly

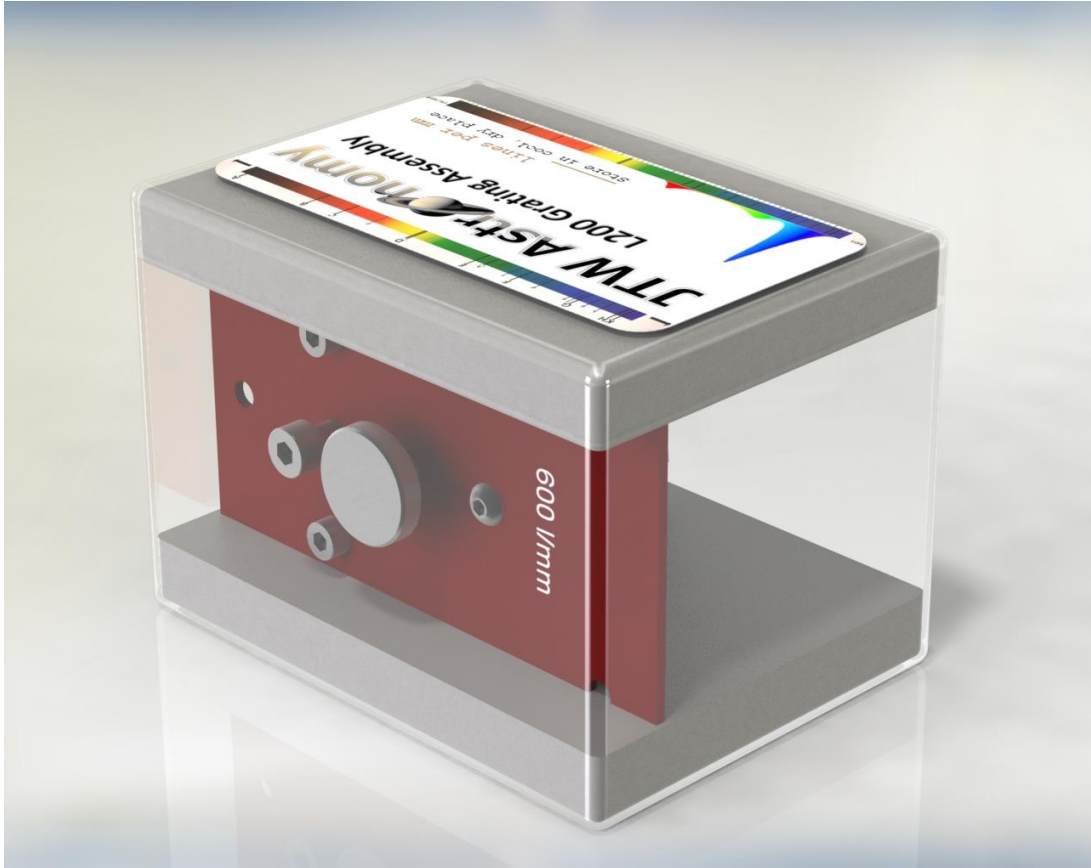

Fig 1.3 – L200 Grating assembly and protective case

The L200 has a quick change grating system, simply remove three RVS thumbscrews and you can replace the grating in just a few minutes. The standard L200 kit and assembled scope are supplied with a 600 l/mm grating. Also available are 150, 300, 1200 and 1800 l/mm gratings

Scope of delivery

- Complete grating assembly
- Foam lined protective case
